

# HOLLAND LAKE SUCCESS STORY

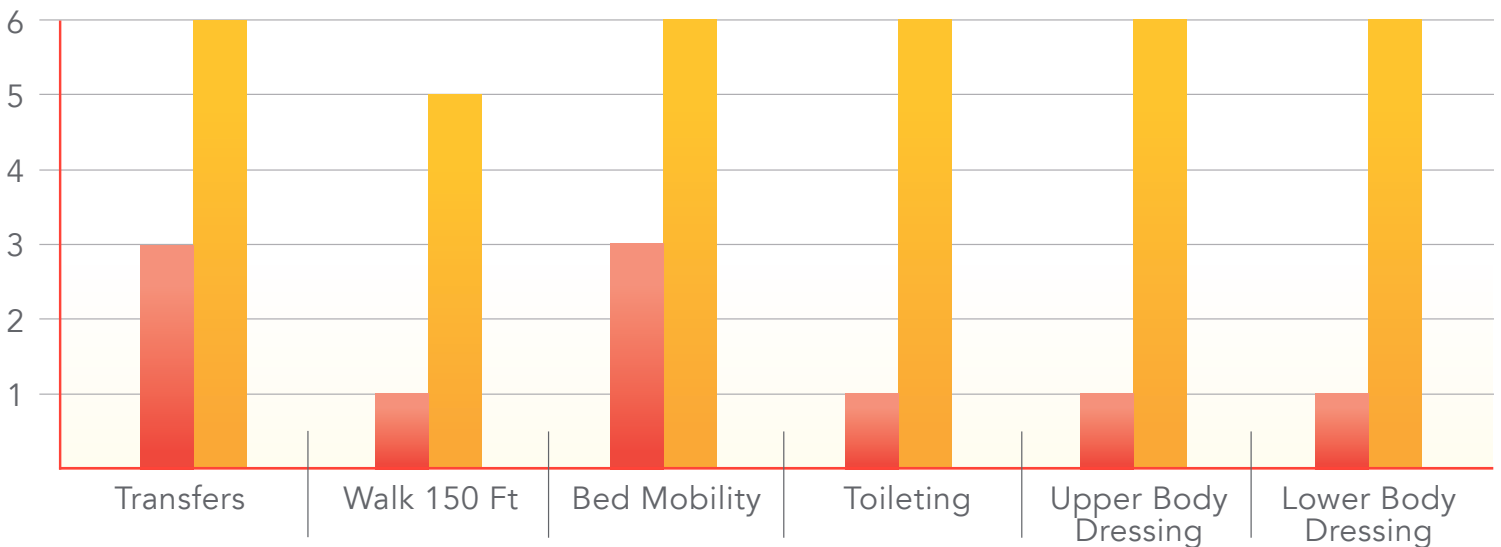

**Fedora L.** was admitted to Holland Lake Rehab and Wellness after suffering an ankle fracture from a fall. Upon admission, she required moderate assistance with all bed mobility and transfers and was unable to ambulate. She required max assistance for toileting tasks and was unable to complete lower body dressing.

Fedora worked hard toward her goals and successfully returned home to her assisted living facility after an 18-day stay. At the time of her discharge, she was able to walk 150 feet with a rolling walker with stand-by assistance. Fedora was able to perform all bed mobility tasks and upper and lower body dressing without assistance. Great job, Fedora!

## Fedora's Therapy Outcomes
